## SOMETHING TO CONSIDER

Less than one-half of the usual number of Apple Grafts are being made up this season. The main reasons are apple trees are cheap, Ornamentals are mostly very high and a large number of nurserymen are cutting the growing of fruit trees out altogether, growing nothing except Ornamentals. This is bound to cause a shortage in apple trees and much higher prices.

We are prepared to take care of your graft orders for immediate shipment or a later date to suit your convenience. This is undoubtedly the time to keep up your plant of fruit trees and not follow the crowd.
